

Dr. Frank J. Hayden Secondary School

Game On! SHSM in Sport

Program Overview:

The proposed program will approach Sport through four themes – performance, training & treatment, recreation & support, and business & media entertainment. Young people enjoy sport but don't often realize that there are endless career opportunities to be affiliated with sport, beyond competing.

Students will:

- Gain an awareness of career opportunities for all pathways in the Sport sector, including themes of performance, training & treatment, recreation & support, and business & media entertainment
- Participate in field trips and reach ahead opportunities to explore their potential career interests related to Sport
- Connect with companies, community partners, and post-secondary institutions in Sport-related fields through guest speakers and course-related work
- Earn certifications such as First Aid, CPR, WHMIS, and AED Training, along with other interest-based career-specific training

Course Package

Students in the Sport SHSM will complete:

- 4 credits based on their interests; course options include Healthy Active Living (sport, fitness, & recreation options), Business, Communications Technology & Leadership
- Grade 11 Math credit
- Grade 11 Science or Business credit
- Grade 12 English credit
- 2 credit Co-op placement

Who would be interested in the program?

The Sport sector offers opportunities for students in all pathways. This program may appeal to students interested in:

- **Performance:** playing sport at a competitive level, coaching, refereeing, etc.
- **Preparation & Treatment:** athletic training & therapy, fitness, kinesiology, sport medicine, sport psychology, etc.
- **Recreation & Support:** recreation programs for adults & children, camps, leadership in sport, event coordinator, etc.
- **Business & Media Entertainment in Sport:** broadcasting of sport, management, marketing, finances, agents, etc.

Program Delivery Schedule:

The program is offered throughout the school year at Dr. Frank J. Hayden S. S., subject to availability of the required courses. Co-op credits may be completed during the summer months and must be tied to the theme of Sport. Single sections of some credits may be offered in only one semester.

Application Details and Contact Information:

All students can obtain information and details to apply for this program from his or her guidance office or contact:
