CRAIG KIELBURGER SECONDARY SCHOOL ASSIST PROGRAM (ABLE STUDENTS SUPPORTING INFORMATION SECTOR TECHNOLOGY)

Program Overview:

This program focuses on preparing students for work, apprenticeship or continued studies in the Information Technology sector, Computer Technology and Computer Engineering Technology. Maintenance, networking, interfacing, and game programming in Microsoft's XNA for the Xbox and Xbox Kinect are some of the hot topics in this growing fast paced sector. There are plenty of IT sector employment opportunities in the next five years.

Students Will:

Along with taking 2 Information Technology courses you will also take Math, Science, Business and English courses. These courses contain one or more units of study that focus on skills and knowledge geared to the Information Technology sector. IT courses contain opportunities to gain sector recognized qualifications such as the CISCO Discovery and Explorations, Cisco IT Essentials, Microsoft XNA Semesters 1 and 2 and Microsoft Xbox Kinect. CPR, First Aid and WHMIS are also required for completion.

PATHWAYS

Course Package:

This course package includes: Computer Technology, Computer Studies or Technological Design, Math, English, Business and Coop.

Who would be interested in the program?

Students who have an interest in computers, software development, engineering, networks, robotics or computer services.
