

Exemption Exams: Hairstyling

Students that are successful in this program earning all six of their in-school credits and a minimum of 2 Coop Credits will earn a Concentrated OYAP pre-apprenticeship certificate. This indicates that the students have successfully completed the Hairstylist Concentrated OYAP program. All successful students may challenge the Ministry of Training, Colleges and Universities exemption exam for level 1 and level 2 for Hairstylist. However it is only recommended that students, who have earned a minimum of 70% on all units, write this exam. Students who pass the Ministry exemption exam, will be exempt from that level of apprenticeship training. Students MUST be signed for their apprenticeship within 6 months of passing their exemption exam or it will be voided and the student will have to rewrite. Students who are successful in challenging the exemption exams will be granted a Concentrated OYAP Exemption Certificate, at either basic and/or advanced level. Please note the college may charge a fee for administering this test.
